

DISTRIBUTED GENERATION APPLICATION FORM

SITE DETAILS

ICP number:	
Site address:	
	CONTACT DETAILS
Full name:	
Physical address:	
Postal address:	
Phone Number:	Email address:
DISTRI	BUTED GENERATION DETAILS
Is the proposed connection a new conne	ection or an increase in capacity?
Type of generation (eg photo voltaic):	
Total generation kVA output:	Power factor:
	·
	CUNICAL CRECIFICATIONS
Please note: • The inverter installer must be a requirements of the AS4777.1 st	·
Please note: • The inverter installer must be a requirements of the AS4777.1 s • The installer must be able to p installation, confirming the inst contained in Vector's connections.	qualified electrician and must be familiar with the installation tandard (AS4777 part 1). Tovide a signed certificate of compliance on completion of the allation has been installed in accordance with the requirements
 Please note: The inverter installer must be a requirements of the AS4777.1 s The installer must be able to p installation, confirming the inst contained in Vector's connection. The installer must ensure, and and operation standards. 	qualified electrician and must be familiar with the installation tandard (AS4777 part 1). rovide a signed certificate of compliance on completion of the allation has been installed in accordance with the requirements on and operation standards.
 Please note: The inverter installer must be a requirements of the AS4777.1 s The installer must be able to p installation, confirming the inst contained in Vector's connection. The installer must ensure, and and operation standards. 	qualified electrician and must be familiar with the installation tandard (AS4777 part 1). rovide a signed certificate of compliance on completion of the allation has been installed in accordance with the requirements on and operation standards. certify, that the inverter settings comply with Vector's connection
Please note: • The inverter installer must be a requirements of the AS4777.1 st. • The installer must be able to prinstallation, confirming the installation on the installer must ensure, and and operation standards. PLEASE CONFIRM	qualified electrician and must be familiar with the installation tandard (AS4777 part 1). rovide a signed certificate of compliance on completion of the allation has been installed in accordance with the requirements on and operation standards. certify, that the inverter settings comply with Vector's connection THE DETAILS OF YOUR INVERTER BELOW
Please note: • The inverter installer must be a requirements of the AS4777.1 st. • The installer must be able to prinstallation, confirming the installation on the installation of the installation of the installer must ensure, and and operation standards. PLEASE CONFIRM Make:	qualified electrician and must be familiar with the installation tandard (AS4777 part 1). rovide a signed certificate of compliance on completion of the allation has been installed in accordance with the requirements on and operation standards. certify, that the inverter settings comply with Vector's connection THE DETAILS OF YOUR INVERTER BELOW Model: Number of inverters:
Please note: • The inverter installer must be a requirements of the AS4777.1 st. • The installer must be able to prinstallation, confirming the installation on the installation of the installation of the installation of the installer must ensure, and and operation standards. PLEASE CONFIRM Make: Maximum rated inverter kW output:	qualified electrician and must be familiar with the installation tandard (AS4777 part 1). rovide a signed certificate of compliance on completion of the allation has been installed in accordance with the requirements on and operation standards. certify, that the inverter settings comply with Vector's connection THE DETAILS OF YOUR INVERTER BELOW Model: Number of inverters:
Please note: • The inverter installer must be a requirements of the AS4777.1 st. • The installer must be able to prinstallation, confirming the installation, confirming the installation in Vector's connection. • The installer must ensure, and and operation standards. PLEASE CONFIRM Make: Maximum rated inverter kW output: If battery storage, what is the battery outconnected voltage:	qualified electrician and must be familiar with the installation tandard (AS4777 part 1). rovide a signed certificate of compliance on completion of the allation has been installed in accordance with the requirements on and operation standards. certify, that the inverter settings comply with Vector's connection THE DETAILS OF YOUR INVERTER BELOW Model: Number of inverters:
Please note: • The inverter installer must be a requirements of the AS4777.1 st. • The installer must be able to prinstallation, confirming the installation, confirming the installation in Vector's connection. • The installer must ensure, and and operation standards. PLEASE CONFIRM Make: Maximum rated inverter kW output: If battery storage, what is the battery outconnected voltage:	qualified electrician and must be familiar with the installation tandard (AS4777 part 1). rovide a signed certificate of compliance on completion of the allation has been installed in accordance with the requirements on and operation standards. certify, that the inverter settings comply with Vector's connection THE DETAILS OF YOUR INVERTER BELOW Model: Number of inverters: tput (amp hour rating?):
Please note: • The inverter installer must be a requirements of the AS4777.1 st. • The installer must be able to prinstallation, confirming the instruction contained in Vector's connection. • The installer must ensure, and and operation standards. PLEASE CONFIRM Make: Maximum rated inverter kW output: If battery storage, what is the battery outconnected voltage: I CONFIRM THAT THE INFORMATION.	qualified electrician and must be familiar with the installation tandard (AS4777 part 1). rovide a signed certificate of compliance on completion of the allation has been installed in accordance with the requirements on and operation standards. certify, that the inverter settings comply with Vector's connection THE DETAILS OF YOUR INVERTER BELOW Model: Number of inverters: tput (amp hour rating?):
